

The future of identity in the information society (A view of sociologist)

Anna Chernykh

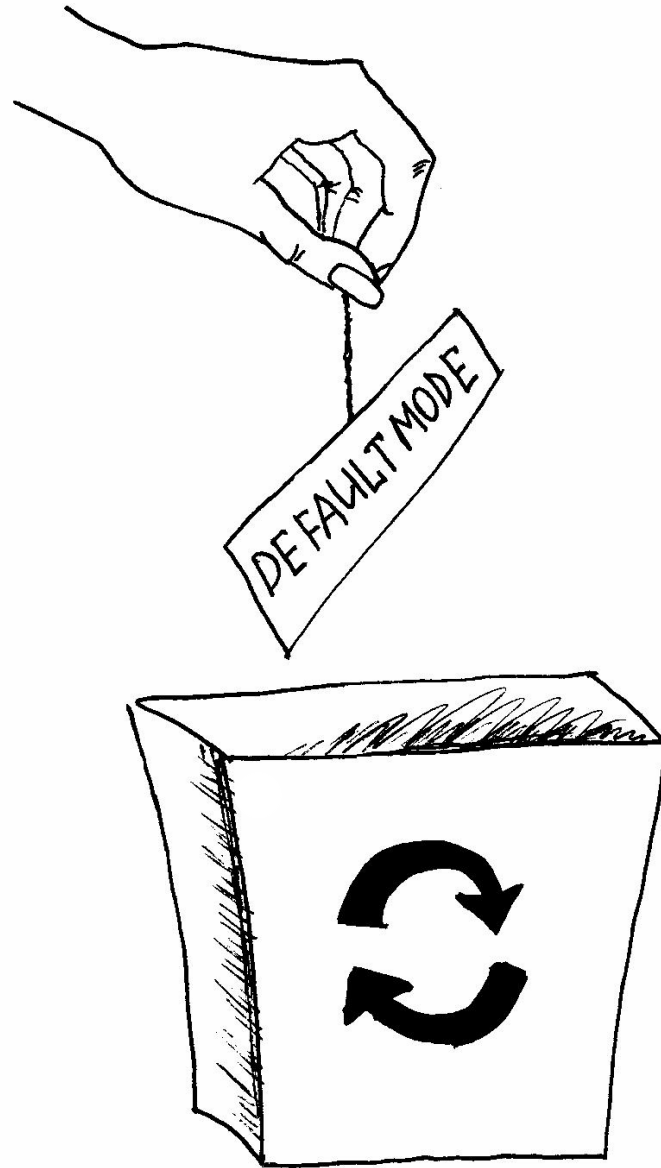

Theoretical reasons

Identity

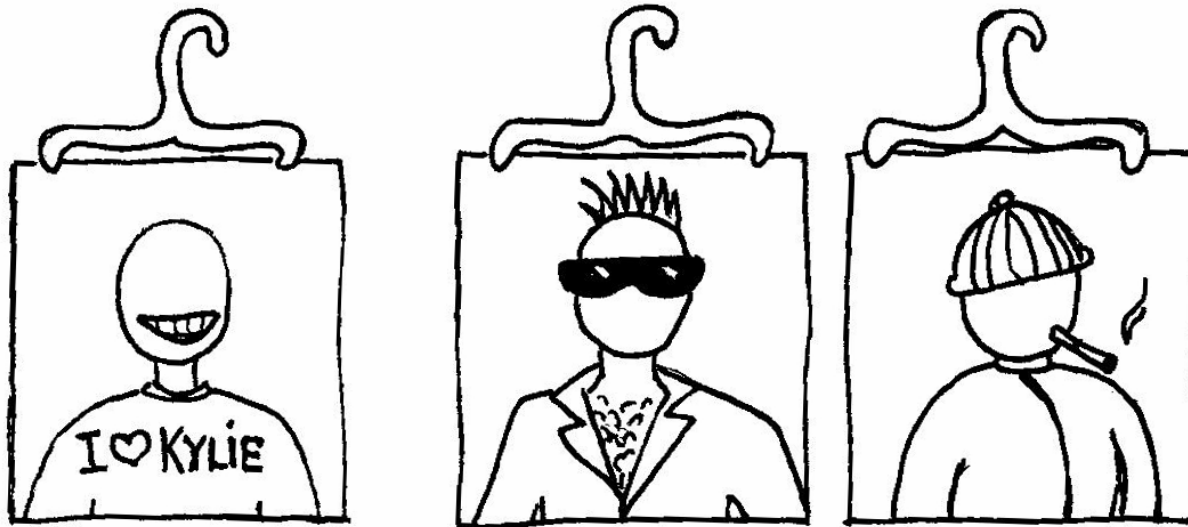

Identification

Confusion

Presentation of self

ID alternatives

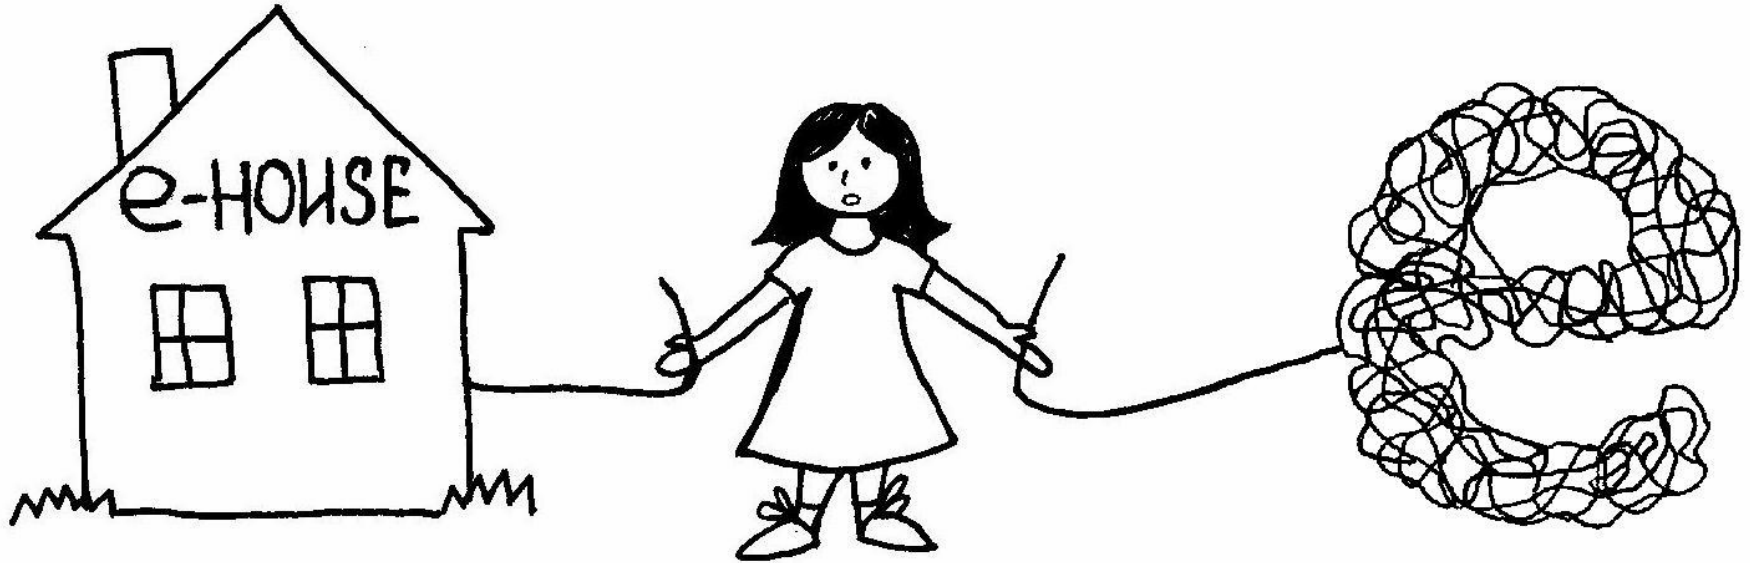

NOW I TRUST
YOU, DARLING.

TRUE... FALSE

Public/private

“How less we can without them!”

Helder сообщат:

but at least that few hours they feel happy

Helder сообщат:

i guess

Anna сообщат:

well, yes, maybe

Anna сообщат:

i just wonder how make people say truth in the net

Anna сообщат:

or simply present what they really are

Helder сообщат:

maybe because on the other side of comp don't wanna know how they really are... or can be another delusion....

Helder сообщат:

so **maybe because on the other side of comp they**

Anna сообщат:

don't wanna know how they really are... or can be

Helder сообщат:

lol

another delusion....

Anna сообщат:

yes, it's kind of a mutual agreement between people

Anna сообщат:

you take me as perfect man and i repay you the same

Helder сообщат:

yes... something like that...

Helder сообщат:

even in real people do that... of course it's more difficult ...

Helder сообщат:

wanna be what other's want they to be

Anna сообщат:

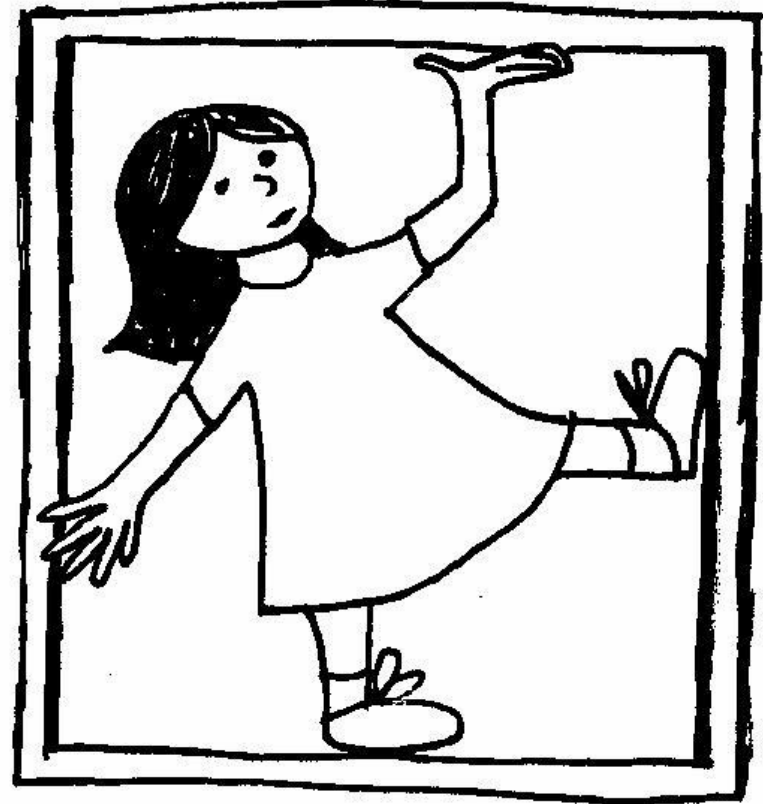

the rules of life lol

Helder сообщат:

lol

Anna сообщат:

Widening horizons or putting within the frames?
